AI Safety: Community, Research & Training

Community & Field Building

- **Founding Team Member** — Italian AI Safety Community (building the emerging AI safety community in Italy).
- **Member** — BAISH (Buenos Aires AI Safety Hub), Argentina.

AI Governance Research Fellow

CORDA Democracy Fellowship — Apart Research & Odyssean Institute

Remote
Spring 2026

- Contributing to Phase 1 of *The Odyssean Process for AI Governance*, developing educational materials and decision-support tools for citizens' assemblies on AI (UK 2026, global 2027).
- Analysing expert elicitation data on AI governance: validating structured survey responses, identifying biases in weighting, running sensitivity analyses.
- Coding qualitative expert responses, extracting scenarios and causal variables, and building causal loop diagrams that trace pathways from drivers of AI risk to proposed governance solutions.
- Mentor: Jacob Haimés (Research Programs Lead, Apart Research; AI Safety Lead, Odyssean Institute).

AGI Strategy Course — Graduate

BlueDot Impact

Remote
2026

- Completed structured curriculum covering frontier AI risks, catastrophic and existential threat models, compute governance, international coordination, corporate governance of frontier labs, and AI policy under deep uncertainty.

Teaching Experience

Lecturer (Professor by Contract)

University of Buenos Aires — School of Economics

Buenos Aires
2025 — Present

- **Artificial Intelligence** (2026, 2nd semester) — Master's in Applied Economics. Designing and delivering sessions on contemporary AI methods, applications, and their policy and economic implications.
- **Big Data and Machine Learning** (2025, 1st semester) — undergraduate. Built curriculum from the ground up, integrating hands-on workshops and interactive sessions for mixed-background cohorts.

Instructor

educacion.earth — Geo Data Scientist training programme

Remote
2024 — Present

- Teaching applied AI and machine learning for Earth observation and environmental problems to international Spanish-speaking cohorts (150+ students to date).
- Designing modules and workshops that translate technical ML content for practitioners from non-technical backgrounds.

Graduate Teaching Assistant

IDAES — National University of San Martín (UNSAM)

Buenos Aires
2023 — Present

- Master's-level courses: *Introduction to Data Science for Social Scientists*, *Data Visualization*, *Machine Learning Fundamentals*, *Introduction to Data Modeling*, and *Data Processing in R*.
- One-on-one mentoring of students on applied projects, bridging technical content and social-science research questions.

Professional Experience

Data Scientist *Italy*
Instant Analytics March 2026 — Present

- Market intelligence through NLP applied to large-scale text sources; client-facing analytical delivery.

Consultant — Inter-American Development Bank (IDB) project *Remote*
Techo — in collaboration with the University of Twente (Netherlands) 2025 — Present

- Leading the development of AI/ML remote-sensing models to detect deprived urban areas across Latin American cities, under an IDB-funded initiative.
- Coordinating a cross-institutional team spanning Techo (NGO), the IDB, and the University of Twente; aligning technical work with policy and programmatic goals.

Data Scientist / Policy Analyst *Buenos Aires*
Government of the City of Buenos Aires — Urban Development Secretariat; Ministry of Habitat 2023 — 2025

- Evaluation and monitoring of public policies using data science methods.
- Translating technical analysis into decision-relevant insights for policy stakeholders.

Research

Visiting Researcher *Italy*
University of Molise — Department of Economics Nov 2025 — Mar 2026

- *Moving Italianess* scholarship. Research on AI applications for monitoring and evaluation of public policies, embedded in a team working on AI-assisted policy evaluation.

Co-Coordinator — Interdisciplinary Research Project *Argentina*
CIAI-UNSAM 2025 — Present

- *Building LULC trajectory typologies using edit distances and Transformers* — applying sequence-analysis and Transformer-based methods to land-use trajectories to identify deforestation and ecological transitions.
- Co-leading project design, team coordination, and cross-disciplinary integration (social sciences, environmental science, ML).

Research Assistant *Argentina*
Factor-Data — UNSAM 2023 — 2025

- *Modes of expansion of the agricultural frontier in Argentina* — applying NLP and ML to social-science research questions.
- Co-author on computational analysis of cultural dimensions in Argentine tango and rock lyrics.

Selected Conferences

- *AI-Based Land Cover Classification for Detecting Agricultural Frontier Expansion: Trajectory Analysis in Argentina* — 10th International Scientific Conference EMAN 2026, University of Oxford, March 2026 (*peer-reviewed*).

- *The Computational Turn or: How Social Sciences Learned to Stop Worrying and Love AI* — IV Sociology Conference, Mar del Plata, March 2025.
- *Cultural dimensions in Argentine tango and rock lyrics: An NLP approach* — IV Sociology Conference, Mar del Plata, March 2025.

Education

Admitted — EPOG-JM Erasmus Mundus Joint Master *Europe*
Economic Policies for the Global Bifurcation — EU-funded Admitted 2026

BA in Social and Cultural Anthropology *Argentina*
National University of San Martín (UNSAM) 2020 — 2025

- Thesis (in progress): *Modes of expansion of the agricultural frontier in Argentina.*

Diploma in Data Science and Artificial Intelligence *Argentina*
National University of San Martín (UNSAM) 2023

First International Summer School on Artificial Intelligence *Argentina*
UNSAM & UNAHUR Feb 2025

Technical Skills

AI/ML: Python, PyTorch, TensorFlow, Hugging Face Transformers, scikit-learn, XGBoost; NLP (classification, topic modelling, embeddings), Computer Vision.

Data & research tools: R (tidyverse), SQL, pandas, NumPy; QGIS, Google Earth Engine, Rasterio; Git, Docker, cloud (AWS/GCP/Azure).

Research methods: qualitative coding, survey analysis, sensitivity analysis, causal loop diagramming, scenario modelling, mixed-methods social research.

Selected Awards

- **Moving Italianess Scholarship** — research stay at University of Molise, 2025–2026.
- **EVC-CIN Scholarship** (Stimulus for Scientific Vocation) — 2024–2025.
- **Young Scholar Initiative Scholarship** — IV Sociology Conference Pre-Conference, 2025.
